

EXTRA DAY SCORES

Besides participating in qualifying competitions, players may for handicap purposes, return **EXTRA DAY SCORES** (EDS) by observing the following procedure:

- ◆ **Before starting the round, the player must register with office including name of marker, name(s) of playing partner(s) and exact handicaps**

- ◆ **When you complete your round, your scorecard must be returned to the office, duly completed and signed by player and marker. A non-returned card may result in a penalty score being applied to your handicap record.**
- ◆ **Either full the 18-hole round or the front 9-hole round may be played for EDS, but you must decide before your round whether you will be playing 9 or 18 holes, and inform the office accordingly.**
- ◆ **Handicap Conditions apply (use of correct tees, summer greens only). Round must be played under R&A Rules applicable to a qualifying competition. In the early or late season, when the normal tees are not in use and course plays shorter EDS are not accepted.**
- ◆ **There are no limits for the handicaps of either the player or marker for extra day scores to count, but both player and marker must have a valid current WHS handicap index.**
- ◆ **Players may mutually mark their scores**
- ◆ **CBA procedure is not applicable**
